CERTIFICATE OF COMPLIANCE

Product name : **SWIZA Swiss Knife**

Manufacturer's information:

Helvetica Brands SA
Rue St-Randoald 8
CH-2800 Delémont
+41 (0)32 625 1904

Characteristics of the product:

The blades (75mm length) in every SWIZA Swiss Knife are forged from a chrome and molybdenum alloy to obtain an extra strong, durable and tenacious blade and then polished to an impervious stainless steel finish.

- Material: Stainless Steel 440
- Hardness: 57 HRC

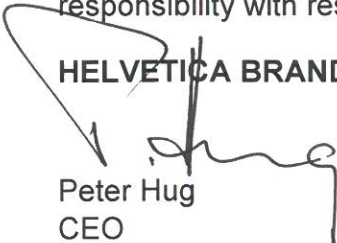

Tools and plates made of stainless steel, which together with the scales manufactured from TPE (Thermoplastic Elastomer) enables easy maintenance. The SWIZA Swiss Knife may be cleaned in the dishwasher (up to 80°C / 176°F) if a drop of oil is put on the moving parts after drying.

The SWIZA Swiss Knife was developed, prototyped and is being produced within our own factory in the Swiss canton of Jura by specialists accomplished in the expertise and high quality standards inherent in the "Swiss-made" epithet, the pocket knife represents time-honored tradition and modernity in perfect synthesis.

SWIZA has a corporate culture with conscious decisions for sustainable development but without the intention to impede progress.

In the total value chain takes SWIZA an integral view of social, environmental and economic responsibility with respect to our environment.
